Start by marking "Concise Introduction to Comparative Law" as "Want to Read: Want to Read savingâ€¦; Want to Read."Â This book is mainly designed to be used as a textbook for beginners taking introductory courses on foreign and comparative law. The book's concise format makes it fit for use also in other courses, such as legal history or jurisprudence. It will provide students with a b In today's globalized world, jurists cannot limit themselves to studying the laws of their own country. This book is mainly designed to be used as a textbook for beginners taking introductory courses on foreign and comparative law. The book's concise format makes it fit for use also in other courses, such as leg

Contains overview of Comparative law as a subject, its function and methodology. Outlines all the major legal systems of the world and details individual areas of law within these systems. It is extremely well written, and skilfully translated from the German by Tony Weir. The second edition of this volume is highly regarded world-wide and was translated into many languages including Italian, Japanese and Russian. New to this Edition: Includes a chapter on Japanese Law. Contains overview of comparative law as a subject, its function and methodology.Â "The third edition of "IA n Introduction to Comparative Law continues to enrich the perspectives of a new generation of readers." - Susan Millns, International and Comparative Law Quarterly Vol.48 October 1999. Share: Also of Interest.

Constitutional comparisons offer 'hermeneutic' help: they enable us to see 'our' own constitution with different eyes and to locate its structural and normative choices by references to alternatives evident in other constitutional orders. This Cambridge Companion presents readers with a succinct yet wide-ranging companion to a modern comparative constitutional law course, offering a wide-ranging yet concise introduction to the subject. Michael Bogdan. In today's globalized world, jurists cannot limit themselves to studying the laws of their own country. This book is mainly designed to be used as a textbook for beginners taking introductory courses on foreign and comparative law. The book's concise format makes it fit for use also in other courses, such as legal history or jurisprudence. It will provide students with a basic knowledge of US, English, French, German, Chinese, and Islamic law and legal culture. It also discusses the methodological problems that arise in connection with studying, comparing, and working a. Title of a Course Introduction to comparative law. b. Pre-requisites The course is targeted at first-year undergraduate law students who are expected to have successfully completed the undergraduate courses on foreign legal history and legal theory.Â d. Abstract This introductory course on comparative law theory is designed especially for undergraduate first-year students who are genuinely interested in studying foreign jurisdictions and legal systems and possess a solid knowledge of English but have an educational background limited only to the very first two modules of the first-year curriculum at the faculty of law. 2. Learning Objectives The course aims at introducing the students the major approaches of "traditional"™.
