Contents

Module I FOUNDATION CONCEPTS

Chapter 1

Foundations of Information Systems in Business 3

SECTION I Foundation Concepts: Information Systems in Business 4

Introduction 4

The Real World of Information Systems 4

Analyzing Amazon.com 4

Real World Case: Amazon.com: Success with Information Technology 5

What Is an Information System? 6

Information Technologies 6

What You Need to Know 6

An IS Framework for Business Professionals 6

The Fundamental Roles of IS in Business 6

The Role of e-Business in Business 6

Trends in Information Systems 10

Types of Information Systems 12

Operation Support Systems 12

Management Support Systems 13

Other Classifications of Information Systems 14

Managerial Challenges of Information Technology 15

Success and Failure with IT 16

Developing IS Solutions 16

Challenges of Ethics and IT 18

Challenges of IT Careers 18

The IS Function 19

SECTION II Foundation Concepts: The Components of Information Systems 20

System Concepts: A Foundation 20

Analyzing Kodak, HP, and Amersham Biosciences 20

Real World Case: Kodak, HP, and Amersham Biosciences: Information Systems for Sales 21

What Is a System? 22

Feedback and Control 22

Other System Characteristics 23

Components of an Information System 24

Information System Resources 25

People Resources 25

Hardware Resources 25

Software Resources 26

Data Resources 26

Network Resources 27

Information System Activities 27

Input of Data Resources 27

Processing of Data into Information 28

Output of Information Products 28

Storage of Data Resources 28

Control of System Performance 28

Recognizing Information Systems 29

Analyzing Kodak and HP's Information Systems 29

Real World Case: Aviall Inc.: From Failure to Success with Information Technology 35

Real World Case: Pacific Gas and Electric Co.: Developing Customer Service Information Systems 36

Chapter 2

Competing with Information Technology 37

SECTION I Fundamentals of Strategic Advantage 38

Strategic IT 38

Analyzing GE, Dell, Intel, and Others 38

Real World Case: GE, Dell, Intel, and Others: The Competitive Advantage of Information Technology 39

Competitive Strategy Concepts 40

Competitive Forces and Strategies 40

Strategic Uses of Information Technology 41

<i>Other Competitive Strategies</i>	42
The Value Chain and Strategic IS	44
<i>Value Chain Examples</i>	44
SECTION II Using Information Technology for Strategic Advantage	46
Strategic Uses of IT	46
<i>Analyzing Intec Engineering</i>	46
Real World Case: Intec Engineering: The Strategic Value of Knowledge Management Systems	47
Building a Customer-Focused Business	48
Reengineering Business Processes	50
<i>The Role of Information Technology</i>	50

Becoming an Agile Company	52
Creating a Virtual Company	54
<i>Virtual Company Strategies</i>	55
Building a Knowledge-Creating Company	56
<i>Knowledge Management Systems</i>	56
Real World Case: Progressive, Yellow, JetBlue, and Gentex: Using Information Technology for Competitive Advantage	62
Real World Case: CDW and Harrah's Entertainment: Developing Strategic Customer-Loyalty Systems	63

Module II INFORMATION TECHNOLOGIES

Chapter 3

Computer Hardware 65

SECTION I Computer Systems: End User and Enterprise Computing 66

<i>Analyzing Progressive Insurance and UniFirst</i>	66
Real World Case: Progressive Insurance and UniFirst Corp.: The Business Case for Mobile Computing Systems	67
Types of Computer Systems	68
Microcomputer Systems	68
<i>Network Computers</i>	71
<i>Information Appliances</i>	71
<i>Computer Terminals</i>	71
Midrange Systems	72
Mainframe Computer Systems	73
<i>Supercomputer Systems</i>	73
Technical Note: The Computer System Concept	75
<i>Computer Processing Speeds</i>	77

SECTION II Computer Peripherals: Input, Output, and Storage Technologies 78

<i>Analyzing Delta and Northwest Airlines</i>	78
Real World Case: Delta and Northwest Airlines: The Business Value of Customer Self-Service Kiosks	79
Peripherals	80
Input Technologies	80
Pointing Devices	80
Pen-Based Computing	81
Speech Recognition Systems	82
Optical Scanning	84
Other Input Technologies	85
Output Technologies	86
Video Output	86

Printed Output	87
Storage Trade-Offs	87
<i>Computer Storage Fundamentals</i>	88
<i>Direct and Sequential Access</i>	89
Semiconductor Memory	89
Magnetic Disks	90
<i>Types of Magnetic Disks</i>	91
<i>RAID Storage</i>	92
Magnetic Tape	92
Optical Disks	93
<i>Business Applications</i>	94
Real World Case: Nappi Distributors and Old Dominion Freight Line: The Business Value of Wireless Handhelds	99
Real World Case: Wisconsin Physicians Service and Winnebago: Moving to Linux on the Mainframe	100

Chapter 4

Computer Software 101

SECTION I Application Software: End User Applications 102

Introduction to Software	102
<i>Analyzing Intuit and Lone Star Doughnuts</i>	102
<i>Types of Software</i>	102
Real World Case: Intuit and Lone Star Doughnuts: The Small Business Software Challenge	103
<i>Application Software for End Users</i>	104
Business Application Software	104
Software Suites and Integrated Packages	106
Web Browsers and More	107
Electronic Mail and Instant Messaging	107
Word Processing and Desktop Publishing	109

Electronic Spreadsheets	109
Presentation Graphics	110
Personal Information Managers	111
Groupware	112
Software Alternatives	112
<i>Application Service Providers</i>	112
SECTION II System Software: Computer System Management	115
System Software Overview	115
<i>Analyzing Wells Fargo and Others</i>	115
<i>Overview</i>	115
Real World Case: Wells Fargo and Others: Business Applications of Web Services	116
Operating Systems	117
<i>Operating System Functions</i>	117
<i>Microsoft Windows</i>	119
<i>UNIX</i>	120
<i>Linux</i>	120
<i>Mac OS X</i>	120
Other System Management Programs	121
Programming Languages	123
<i>Machine Languages</i>	123
<i>Assembler Languages</i>	123
<i>High-Level Languages</i>	124
<i>Fourth-Generation Languages</i>	124
<i>Object-Oriented Languages</i>	124
Web Languages and Services	125
<i>HTML</i>	125
<i>XML</i>	126
<i>Java</i>	127
<i>Web Services</i>	128
Programming Software	130
<i>Language Translator Programs</i>	130
<i>Programming Tools</i>	130
Real World Case: Merrill Lynch and Others: The Growth of Linux in Business	135
Real World Case: Mark's Work Wearhouse and Others: Using Java in Business	136

Chapter 5

Data Resource Management 137

SECTION I Managing Data Resources 138

Data Resource Management	138
<i>Analyzing Argosy Gaming Co.</i>	138

Real World Case: Argosy Gaming Co.: Challenges in Building a Data Warehouse	139
---	-----

Foundation Data Concepts	140
<i>Character</i>	140
<i>Field</i>	140
<i>Record</i>	141
<i>File</i>	141
<i>Database</i>	141

Types of Databases	141
<i>Operational Databases</i>	141
<i>Distributed Databases</i>	142
<i>External Databases</i>	143
<i>Hypermedia Databases</i>	143

Data Warehouses and Data Mining	143
<i>Data Mining</i>	145

Traditional File Processing	146
<i>Problems of File Processing</i>	147

The Database Management Approach	148
<i>Database Management Software</i>	149
<i>Database Interrogation</i>	149
<i>Database Maintenance</i>	151
<i>Application Development</i>	151

SECTION II Technical Foundations of Database Management 153

Database Management	153
<i>Analyzing Owens & Minor and Vivendi Universal</i>	153

Real World Case: Owens & Minor and Vivendi Universal: Protecting Strategic Data Resources	154
---	-----

Database Structures	155
<i>Hierarchical Structure</i>	155
<i>Network Structure</i>	156
<i>Relational Structure</i>	156
<i>Multidimensional Structure</i>	156
<i>Object-Oriented Structure</i>	157
<i>Evaluation of Database Structures</i>	158

Database Development	160
<i>Data Planning and Database Design</i>	161

Real World Case: Henry Schein Inc.: The Business Value of a Data Warehouse	167
--	-----

Real World Case: Anadarko Petroleum and Prudential Financial: Challenges of Data Resource Management	168
--	-----

Chapter 6

Telecommunications and Networks 169

SECTION I The Networked Enterprise 170

Networking the Enterprise	170
<i>Analyzing Celanese Chemicals and Others</i>	170

Real World Case: Celanese Chemicals and Others: Wireless Business Applications	171	Peer-to-Peer Networks	188
Trends in Communications	172	Telecommunications Media	190
<i>Industry Trends</i>	172	<i>Twisted-Pair Wire</i>	190
<i>Technology Trends</i>	173	<i>Coaxial Cable</i>	190
<i>Business Application Trends</i>	174	<i>Fiber Optics</i>	190
The Business Value of Telecommunications Networks	174	Wireless Technologies	191
The Internet Revolution	175	<i>Terrestrial Microwave</i>	191
<i>Internet Applications</i>	175	<i>Communications Satellites</i>	191
Business Use of the Internet	176	<i>Cellular and PCS Systems</i>	193
The Business Value of the Internet	177	<i>Wireless LANs</i>	193
The Role of Intranets	178	<i>The Wireless Web</i>	193
<i>The Business Value of Intranets</i>	178	Telecommunications Processors	194
The Role of Extranets	180	<i>Modems</i>	194
<i>Business Value of Extranets</i>	180	<i>Multiplexers</i>	195
SECTION II Telecommunications Network Alternatives	182	<i>Internetwork Processors</i>	195
Telecommunications Alternatives	182	Telecommunications Software	196
<i>Analyzing Con-Way NOW and Trimble Navigation</i>	182	<i>Network Management</i>	197
Real World Case: Con-Way NOW and Trimble Navigation: The Business Value of GPS Satellite Networks	183	Network Topologies	198
A Telecommunications Network Model	184	Network Architectures and Protocols	199
Types of Telecommunications Networks	185	<i>The OSI Model</i>	199
<i>Wide Area Networks</i>	185	<i>The Internet's TCP/IP</i>	199
<i>Local Area Networks</i>	185	Bandwidth Alternatives	200
<i>Virtual Private Networks</i>	186	Switching Alternatives	200
<i>Client/Server Networks</i>	188	Real World Case: UPS, Wells Dairy, Novell, and GM: The Business Value and Challenges of Wi-Fi Networks	208
<i>Network Computing</i>	188	Real World Case: Grant Thornton and Others: Return on Investment Challenges of Internet Phone Systems	209

Module III BUSINESS APPLICATIONS

Chapter 7

Electronic Business Systems 211

SECTION I Enterprise Business Systems 212

Introduction 212

Analyzing Salesforce.com and Others 212

Real World Case: Salesforce.com and Others: Challenges
of Customer Relationship Management Systems 213

Cross-Functional Enterprise Applications 214

Enterprise Application Architecture 214

ERP: The Business Backbone 216

Benefits of ERP 217

Failures in ERP 218

Causes of ERP Failures 219

CRM: The Business Focus 219

Contact and Account Management 219

Sales 220

Marketing and Fulfillment 221

Customer Service and Support 221

Retention and Loyalty Programs 221

Benefits and Challenges of CRM 222

CRM Failures 222

SCM: The Business Network 223

Benefits and Challenges of SCM 225

Enterprise Application Integration 227

Transaction Processing Systems 228

The Transaction Processing Cycle 229

Enterprise Collaboration Systems 231

Tools for Enterprise Collaboration 231

SECTION II Functional Business Systems 234

Introduction 234

Analyzing GE Power and Corporate Express 234

Real World Case: GE Power Systems and Corporate Express: The Business Case for Enterprise Application Integration 235

IT in Business 236

Marketing Systems 236

Interactive Marketing 237

Targeted Marketing 237

Sales Force Automation 238

Manufacturing Systems 240

Computer-Integrated Manufacturing 240

Human Resource Systems 242

HRM and the Internet 242

HRM and Corporate Intranets 242

Accounting Systems 244

Online Accounting Systems 245

Financial Management Systems 246

Real World Case: Welch's, Straightline, Skyworks, and Pella: The Business Value of Supply Chain Management 253

Real World Case: Lowe and HP: The Business Case for Swarming Collaboration 254

Chapter 8

Electronic Commerce Systems 255

SECTION I Electronic Commerce Fundamentals 256

Introduction to e-Commerce 256

Analyzing eBay 256

Real World Case: eBay Inc.: Managing Success in a Dynamic Online Marketplace 257

The Scope of e-Commerce 258

Electronic Commerce Technologies 258

Categories of e-Commerce 258

Essential e-Commerce Processes 260

Access Control and Security 260

Profiling and Personalizing 261

Search Management 262

Content and Catalog Management 262

Workflow Management 263

Event Notification 264

Collaboration and Trading 265

Electronic Payment Processes 265

Web Payment Processes 265

Electronic Funds Transfer 265

Secure Electronic Payments 266

SECTION II e-Commerce Applications and Issues 268

e-Commerce Application Trends 268

Analyzing Corporate Express 268

Real World Case: Corporate Express: The Business Value of Integrating Customer and Supplier Procurement Systems 269

e-Commerce Trends 270

Business-to-Consumer e-Commerce 271

e-Commerce Success Factors 271

Web Store Requirements 274

Developing a Web Store 274

Serving Your Customers 276

Managing a Web Store 276

Business-to-Business e-Commerce 277

e-Commerce Marketplaces 278

Electronic Data Interchange 280

Clicks and Bricks in e-Commerce 281

e-Commerce Integration 281

Other Clicks and Bricks Strategies 282

e-Commerce Channel Choices 282

Real World Case: E-Trade and Wells Fargo: The Business Case for Clicks and Bricks e-Commerce 289

Real World Case: Providence Washington Insurance and Tharco: The Business Value of an Online Customer Interface 290

Chapter 9

Decision Support Systems 291

SECTION I Decision Support in Business 292

Introduction 292

Analyzing Ben & Jerry's and GE Plastics 292

Real World Case: Ben & Jerry's and GE Plastics: The Business Value of Business Intelligence 293

Information, Decisions, and Management 294

Information Quality 294

Decision Structure 295

Decision Support Trends 296

Management Information Systems 298

Management Reporting Alternatives 298

Online Analytical Processing 300

Decision Support Systems 301

DSS Components 302

Geographic Information and Data

Visualization Systems 303

Using Decision Support Systems	304
<i>What-If Analysis</i>	305
<i>Sensitivity Analysis</i>	305
<i>Goal-Seeking Analysis</i>	305
<i>Optimization Analysis</i>	306
<i>Data Mining for Decision Support</i>	307
Executive Information Systems	308
<i>Features of an EIS</i>	308
Enterprise Portals and Decision Support	309
<i>Enterprise Information Portals</i>	310
Knowledge Management Systems	312
SECTION II Artificial Intelligence Technologies in Business	314
Business and AI	314
<i>Analyzing Wal-Mart, BankFinancial, and HP</i>	314
Real World Case: Wal-Mart, BankFinancial, and HP: The Business Value of AI	315
An Overview of Artificial Intelligence	316
<i>The Domains of Artificial Intelligence</i>	316
Neural Networks	319
Fuzzy Logic Systems	320
<i>Fuzzy Logic in Business</i>	321
Genetic Algorithms	321
Virtual Reality	321
<i>VR Applications</i>	323
Intelligent Agents	323
Expert Systems	325
<i>Components of an Expert System</i>	325
<i>Expert System Applications</i>	325
<i>Benefits of Expert Systems</i>	327
<i>Limitations of Expert Systems</i>	327
Developing Expert Systems	329
<i>Knowledge Engineering</i>	330
Real World Case: Procter & Gamble and Others: Using Agent-Based Modeling for Supply Chain Management	336
Real World Case: Boehringer Ingelheim: Using Web-Based Tools for Financial Analysis and Reporting	337

Module IV DEVELOPMENT PROCESSES

Chapter 10

Developing Business/IT Solutions 339

SECTION I Developing Business Systems 340

IS Development	340
<i>Analyzing Blue Cross, AT&T Wireless, and CitiStreet</i>	340
Real World Case: Blue Cross, AT&T Wireless, and CitiStreet: Development Challenges of Self-Service Web Systems	341
The Systems Approach	342
<i>Systems Thinking</i>	342
The Systems Development Cycle	343
Prototyping	343
<i>The Prototyping Process</i>	344
Starting the Systems Development Process	346
<i>Feasibility Studies</i>	346
Systems Analysis	348
<i>Organizational Analysis</i>	348
<i>Analysis of the Present System</i>	348
<i>Functional Requirements Analysis</i>	350
Systems Design	350
<i>User Interface Design</i>	351
<i>System Specifications</i>	353

End User Development	353
<i>Focus on IS Activities</i>	353
<i>Doing End User Development</i>	354

SECTION II Implementing Business Systems 356

Implementation	356
<i>Analyzing InterContinental, Del Taco, and Cardinal Health</i>	356
Implementing New Systems	356
Real World Case: InterContinental Hotels, Del Taco, and Cardinal Health: Implementation Strategies	357
Evaluating Hardware, Software, and Services	358
<i>Hardware Evaluation Factors</i>	360
<i>Software Evaluation Factors</i>	361
<i>Evaluating IS Services</i>	361
Other Implementation Activities	363
<i>Testing</i>	363
<i>Data Conversion</i>	363
<i>Documentation</i>	363
<i>Training</i>	363
<i>Conversion Methods</i>	364
<i>IS Maintenance</i>	365
Managing Organizational Change	366
<i>End User Resistance and Involvement</i>	366
<i>Change Management</i>	368

Real World Case: Du Pont and Southwire: Implementing Successful Enterprise Information Portals 374

Real World Case: Wyndham International and Amazon.com: Cost-Effective IT 375

Module V MANAGEMENT CHALLENGES

Chapter 11

Security and Ethical Challenges 377

SECTION I Security, Ethical, and Societal Challenges of IT 378

Introduction 378

Analyzing F-Secure, Microsoft, GM, and Verizon 378

Business/IT Security, Ethics, and Society 378

Real World Case: F-Secure, Microsoft, GM, and Verizon: The Business Challenge of Computer Viruses 379

Ethical Responsibility of Business Professionals 380

Business Ethics 380

Technology Ethics 381

Ethical Guidelines 382

Computer Crime 383

Hacking 385

Cyber Theft 385

Unauthorized Use at Work 387

Software Piracy 389

Piracy of Intellectual Property 389

Computer Viruses and Worms 390

Privacy Issues 391

Privacy on the Internet 391

Computer Matching 392

Privacy Laws 393

Computer Libel and Censorship 393

Other Challenges 393

Employment Challenges 393

Computer Monitoring 394

Challenges in Working Conditions 395

Challenges to Individuality 395

Health Issues 395

Ergonomics 396

Societal Solutions 397

SECTION II Security Management of Information Technology 398

Introduction 398

Analyzing Geisinger Health Systems and Du Pont 398

Real World Case: Geisinger Health Systems and Du Pont: Security Management 399

Tools of Security Management 400

Internetworked Security Defenses 401

Encryption 401

Firewalls 402

Denial of Service Defenses 404

e-Mail Monitoring 405

Virus Defenses 406

Other Security Measures 407

Security Codes 407

Backup Files 407

Security Monitors 408

Biometric Security 408

Computer Failure Controls 408

Fault Tolerant Systems 409

Disaster Recovery 410

System Controls and Audits 410

Information System Controls 410

Auditing IT Security 411

Real World Case: Banner Health, Arlington County, and Others: Security Management of Windows Software 417

Real World Case: Online Resources, Lehman Brothers, and Others: Managing Network Security Systems 418

Chapter 12

Enterprise and Global Management of Information Technology 419

SECTION I Managing Information Technology 420

Business and IT 420

Analyzing The Chicago Board of Trade 420

Real World Case: Chicago Board of Trade: From Failure to Success in Managing Information Technology 421

Managing Information Technology 422

Business/IT Planning 423

Information Technology Architecture 424

Managing the IS Function 425

Organizing IT 425

Managing Application Development 427

Managing IS Operations 427

Human Resource Management of IT 428

The CIO and Other IT Executives 428

Technology Management 429

Managing User Services 429

Failures in IT Management 429

Management Involvement and Governance 430

SECTION II Managing Global IT 432

The International Dimension 432

Analyzing Global Exchange Services and Allstate 432

Real World Case: Global Exchange Services and Allstate: Challenges and Solutions in Offshore Systems Development 433

Global IT Management 434

Cultural, Political, and Geoeconomic Challenges 435

Global Business/IT Strategies 436

Global Business/IT Applications 436

Global IT Platforms 439

The Internet as a Global IT Platform 440

Global Data Access Issues 441

Internet Access Issues 442

Global Systems Development 443

Systems Development Strategies 444

Real World Case: Bio-ERA and Burlington Northern Santa Fe: The Business Case for Global Collaborative Development 451

Real World Case: Avon Products and Guardian Life Insurance: Successful Management of IT Projects 452

Review Quiz Answers RQ-1

Glossary for Business Professionals G-1

Name Index I-1

Company Index I-5

Subject Index I-9

A system is a group of procedures and different elements that work together in order to complete a task. Now we can add on to this to get information systems. Information systems are much the same. There are elements and procedures to work to complete a task. The difference is information systems are used to generate information for the users on a need basis. Information systems manage and process data as soon as they're created. They can also be used for long term planning or just the day to day work
