Scientific American is the essential guide to the most awe-inspiring advances in science and technology, explaining how they change our

The Politics of Hope is a brilliant treatise on the political picture in the US today. It filled me with a sense of hope for our future that I have not had in a long time. Donna Zajonc examines the evolution of political thought and action. She describes the collaborative climate that will help us move beyond the political quagmire we find ourselves in today. I sense an urgency to "get it out there" and I have fifteen to twenty friends who must read this. [Read more](#). 5 people found this helpful. Helpful. [Comment](#) [Report abuse](#). Ann LaRiviere.

At its most basic, politics is about hope. Power, greed, narrow interests, and, too uncommonly, large ideas – yes, politics is about these things as well. Politics is the means that serve so many different ends, every now and again including the common good. Yet even while scarce few yellow brick political roads end at cities a gleam with emeralds and good men, the journey down none of them begins until the first step and each thereafter is launched by hope. Hope is the journey, you see, though so few anymore venture to take it. Too many in this country today are instead indifferent to politics. Based on his book "The Politics of Hope", Rabbi Sacks analyses the rise in the 'politics of anger' in the West today and explores whether it might be possible to create a different kind of politics: the 'politics of hope'. In recent years societies in Europe and America have become far more divided. The gap between left and right has become deeper. There's been a rise in populist parties of the far right and far left. The extremes are growing and the centre ground is being abandoned. This is the pol...
