I. INTRODUCTION 1

Overview 1

I.A. MEASURING DEVELOPMENT 5

Note I.A. 1. The Evolution of Measures of Development 5
Selection I.A. 1. Why Are Services Cheaper in the Poor Countries? 13
Comment I.A. 1. The Productivity and Factor Proportions Explanations Again 17
Selection I.A. 2. Burden of Poverty 18
Comment I.A. 2. Capabilities and Entitlements 30

I.B. ECONOMIC PERFORMANCE OF LESS DEVELOPED COUNTRIES:

THE RECENT PAST 35
Selection I.B. 1. The East Asian Miracle 36
Selection I.B. 2. East Asian Crisis: An Overview 42
Selection I.B. 3. Completing China’s Move to the Market 48
Selection I.B. 5. The Launching of the Reforms 58
Note I.B. 1. The Triumph of Laissez-Faire? 64
Selection I.B. 7. Explaining Africa’s Development Experiences 65

I.C. THE DISCIPLINE OF DEVELOPMENT ECONOMICS 69

Note I.C. 1. Evolution of Development Economics 69
Comment I.C. 1. Classical Growth Theory 72
Comment I.C. 2. Development Economics as a Special Subject 73
Note I.C. 2. New Endogenous Growth Theory 75
II. HISTORICAL PERSPECTIVE

Overview: The Division of the World

Selection II.1. The Spread of Economic Growth to the Third World: 1850–1980

Comment II.1. State-owned Enterprises and Privatization

Selection II.2. The Division of the World and the Factoral Terms of Trade

Note II.1. Why Not Export First?

Note II.2. The Lewis Model of the World Economy

Selection II.3. Agricultural Productivity, Comparative Advantage, and Economic Growth

Comment II.2. Income Elasticity of Demand for Food in the Matsuyama Model

Selection II.4. Income Distribution, Market Size, and Industrialization

Comment II.3. Minimum Market Size in the Murphy–Shleifer–Vishny Model

Selection II.5. Divergence, Big Time

III. SAVINGS AND INVESTMENT

Overview: Savings—The Engine of Growth?

Note III.1. The AK Model

Selection III.1. Is Fixed Investment the Key to Economic Growth?

Selection III.2. Interest Rates in the Organized Money Markets of Underdeveloped Countries and Interest Rates Outside the Organized Money Markets of Underdeveloped Countries

Selection III.3. Financial Liberalization in Retrospect: Interest Rate Policies in LDCs

Comment III.1. Financial Liberalization

Selection III.4. Financial Development and Economic Growth in Underdeveloped Countries

Selection III.5. Financial Development and Economic Growth: Views and Agenda

Selection III.6. Good Policy or Good Luck? Country Growth Performance and Temporary Shocks

Comment III.2. Policies Versus Shocks: A Closer Look

IV. INTERNATIONAL TRADE AND TECHNOLOGY TRANSFER

Overview

IV.A. TRADE

Selection IV.A.1. Natural Resource Abundance and Economic Growth

Note IV.A.1. Import-substituting Industrialization and the Infant-Industry Argument

Selection IV.A.2. Typology in Development Theory: Retrospective and Prospects

Selection IV.A.3. An Exposition and Exploration of Krueger’s Trade Model

Comment IV.A.1. Moving Up the Ladder and Changes in Relative Costs of Factors of Production
Selection IV.A.5. Exchange Control, Liberalization, and Economic Development 187
Selection IV.A.6. Trade Policy Reform 191
Comment IV.A.2. Stabilization-cum-Liberalization Programs 193
Selection IV.A.7. Getting Interventions Right: How South Korea and Taiwan Grew Rich 195
Note IV.A.2. Tradeability of Intermediate Goods, Linkages, and Bottlenecks 202

IV.B. FOREIGN CONTACT AND TECHNOLOGY TRANSFER 204
Note IV.B.1. Learning in International Production Networks 204
Selection IV.B.1. Technology Gaps Between Industrial and Developing Countries: Are There Dividends for Latecomers? 206
Selection IV.B.2. The Benefits of FDI 209
Note IV.B.2. Trade as Enemy, Handmaiden, and Engine of Growth 211

V. HUMAN RESOURCES 213
Overview 213

V.A. EDUCATION 216
Note V.A.1. Three Views of the Contribution of Education to Economic Growth 216
Selection V.A.2. Economic Impact of Education 223
Comment V.A.1. Ability Differences, Spillovers, and the Returns to Education 226
Comment V.A.2. Education and Development 227
Selection V.A.3. Interpreting Recent Research on Schooling in Developing Countries 229
Selection V.A.4. Schooling Quality in a Cross Section of Countries 234
Selection V.A.5. Creating Human Capital 237

V.B. POPULATION 241
Note V.B.1. The Size of the World’s Population and the Size of the Average Family 241
Selection V.B.1. Economic Approaches to Population Growth 242

V.C. HEALTH AND NUTRITION 249
Selection V.C.1. Health and Nutrition 254
Selection V.C.2. Investing in Health 257

V.D. GENDER AND DEVELOPMENT 263
Selection V.D.1. Women’s Education in Developing Countries: An Overview 263
VI. MIGRATION AND THE URBAN INFORMAL SECTOR

Overview: The Evolving View of Urban Underemployment, the Informal Sector, and Their Connection with Rural-Urban Migration

Selection VI.1. Urban Growth in Developing Countries: A Demographic Reappraisal

Selection VI.2. Economic Development with Unlimited Supplies of Labor

Selection VI.3. A Model of Labor Migration and Urban Unemployment in Less Developed Countries

Note VI.1. The Lewis Versus the Harris-Todaro View of Underemployment in Less Developed Countries

Selection VI.4. Wage Spillover and Unemployment in a Wage-gap Economy: The Jamaican Case

Note VI.2. Econometric Studies of Migration

Selection VI.5. The Informal Sector

Selection VI.6. A Reassessment of Kenya’s Rural and Urban Informal Sector

Selection VI.8. The Role of the Informal Sector in the Migration Process: A Test of Probabilistic Migration Models and Labour Market Segmentation for India

VII. AGRICULTURE

Overview

VII.A. THE IMPORTANCE OF AGRICULTURE FOR ECONOMIC DEVELOPMENT

Selection VII.A.1. Development Strategy in a Limping World Economy

Note VII.A.1. Food, Hunger, Famine

VII.B. DESIGNING AN AGRICULTURAL STRATEGY

Selection VII.B.1. Some Theoretical Aspects of Agricultural Policies

Selection VII.B.2. Criteria for the Design of Agricultural Development Strategies

Comment VII.B.1. The Green Revolution
CONTENTS

Comment VII.B.2. Land Reform 346
Selection VII.B.3. The Agricultural Transformation 347
Note VII.B.1. Induced Technical and Institutional Change 350

VII.C. MICROECONOMICS OF THE RURAL SECTOR 352
Selection VII.C.1. The New Development Economics 352
Selection VII.C.3. The New Institutional Economics and Development Theory 359
Selection VII.C.4. Rural Credit Markets and Institutions in Developing Countries: Lessons for Policy Analysis from Practice and Modern Theory 361
Selection VII.C.5. A Survey of Agricultural Household Models: Recent Findings and Policy Implications 364
Comment VII.C.1. Supply Functions and Price Responsiveness 366

VII.D. AGRICULTURAL PRICING POLICY AND URBAN BIAS 368
Note VII.D.1. Agricultural Pricing Policy 368
Selection VII.D.1. Urban Bias 370
Comment VII.D.1. Rural–Urban Terms of Trade 373
Comment VII.D.2. The Rural–Urban Divide 373

VIII. INCOME DISTRIBUTION 375
Overview 375
Note VIII.1. Measurement of Income Inequality 379

VIII.A. THE IMPACT OF DEVELOPMENT ON INCOME DISTRIBUTION 382
Selection VIII.A.1. Economic Growth and Income Inequality 382
Selection VIII.A.2. Inequality, Poverty, and Development 387
Selection VIII.A.3. Growth and Income Distribution 391
Selection VIII.A.4. A Note on the U Hypothesis Relating Income Inequality and Economic Development 394
Selection VIII.A.5. Economic Development, Urban Underemployment, and Income Inequality 395
Comment VIII.A.1. The Informal Sector, Intraurban Inequality, and the Inverted U 399

VIII.B. THE IMPACT OF INCOME DISTRIBUTION ON DEVELOPMENT 401
Selection VIII.B.1. Distributive Politics and Economic Growth 401
Selection VIII.B.2. Income Distribution, Political Instability, and Investment 404
VIII.C. CASE STUDIES 409
Selection VIII.C.1. Economic Growth and Income Distribution in Taiwan, 1953–64 409
Selection VIII.C.2. Brazilian Size Distribution of Income 417

IX. POLITICAL ECONOMY 421
Overview 421
IX.A. THE (PROPER) ROLE OF THE STATE IN LESS DEVELOPED COUNTRIES 426
Selection IX.A.1. Public Policy and the Economics of Development 426
Comment IX.A.1. Development Planning 431
Comment IX.A.2. Governing the Market 432
IX.B. RENT SEEKING AND GOVERNMENT FAILURE 434
Note IX.B.1. What Are Rents? 434
Selection IX.B.1. The Political Economy of the Rent-Seeking Society 437
Comment IX.B.1. Complete Rent Dissipation Through Competitive Rent Seeking in the Harris–Todaro Model 440
Comment IX.B.2. The Relationship Between Rent Seeking and Corruption 440
Selection IX.B.2. Neoclassical Political Economy, the State, and Economic Development 442
Selection IX.B.3. India 446
Selection IX.B.4. Governments and Agricultural Markets in Africa 450
IX.C. STATE CAPACITY 471
Selection IX.C.1. Institutions and Economic Performance:
Cross-Country Tests Using Alternative Institutional Measures 471
Selection IX.C.2. The State as Problem and Solution:
Predation, Embedded Autonomy, and Structural Change 476
Selection IX.C.3. Taking Trade Policy Seriously:
Export Subsidization as a Case Study in Policy Effectiveness 495
Selection IX.C.4. Bureaucratic Structure and Bureaucratic Performance in Less Developed Countries 508

X. DEVELOPMENT AND THE ENVIRONMENT 517
Overview: Environmental Problems in Less Versus More Developed Countries 517
Selection X.1. Development and the Environment 520
Comment X.1. The “Environmental Kuznets Curve” 529
Selection X.2. North–South Trade and the Global Environment 531
Comment X.2. Empirical Studies of the Impact of International Trade on the Environment in Less Developed Countries 533
Selection X.3. Deforestation and the Rule of Law in a Cross Section of Countries 535
Selection X.4. Determinants of Pollution Abatement in Developing Countries: Evidence from South and Southeast Asia 544
Selection X.5. Sustainable Development: Ecology and Economic Progress 554
Comment X.3. Weak Sustainability, Genuine Savings, and Green National Accounting 559

APPENDIX: HOW TO READ A REGRESSION TABLE 561
INDEX OF SELECTION AUTHORS 567
INDEX 569
EXHIBITS

Exhibit I.A.1. Basic Indicators
Exhibit I.A.2. Exchange-Rate-Deviation Index in Relation to Real GDP per Capita, Thirty-four Countries, 1975.
Exhibit I.A.3. The Human Development Index
Exhibit I.A.4. Similar Income, Different Human Development, 1993
Exhibit I.A.5. Human Development Index Rankings
Exhibit I.B.1. Balance Sheet of Human Development—Developing Countries
Exhibit III.1. Economic and Social Indicators in Fast and Slow Growth Economies
Exhibit IV.A.1. Share of Primary Products in Merchandise Exports and Index of Export Concentration
Exhibit V.C.1. Health Indicators
Exhibit V.C.2. Life Expectancies and Health Expenditures in Selected Countries
Exhibit VI.1. Self-employment and Unpaid Family Workers Circa 1990
Exhibit VII.D.1. Rural and Urban Poverty in the 1980s
Exhibit IX.A.1. Market Failure and State Intervention
The economics of development is one of the most exciting subjects in social science. Why, two centuries after the Industrial Revolution, are poverty and its attendant ills so prevalent in most of the world? And what can be done about it? Nobel Prize–winning economist Robert Lucas wrote of the questions addressed by development economics, “Once one starts to think about them, it is hard to think about anything else” [“On the Mechanics of Economic Development,” Journal of Monetary Economics 22 (July 1988), p. 5].

Development economics is also a very frustrating subject. Unlike most areas within economics, there exists no consensus on what the student should know. Two scholars can with equal justification write two completely different textbooks.

The aim of this book is to convey as much of the excitement of development economics and as little of the frustration as possible. To this end we have avoided writing the ordinary type of textbook, instead culling the most insightful readings from the diffuse field of development and bringing them into conceptual order. By using this distinctive approach we allow for a variety of perspectives while keeping in sight the most important overarching themes. The section “Using This Book” (p. xix) describes our strategy of combining excerpted readings (“Selections”) with our own “Overviews,” “Notes,” “Comments,” and “Exhibits.”

After being responsible for the previous six editions of Leading Issues in Economic Development over the past 35 years, Professor Meier has now selected Professor Rauch to upgrade and modernize this seventh edition and to perpetuate subsequent editions. This edition is mainly Professor Rauch’s effort. It reflects his desire to strengthen the analytical and quantitative dimensions of development economics and to illuminate contemporary—and future—problems of development policymaking. In all, it provides fresh and serious attention to the interplay between development experience, changing views of economists, and policy.

While this seventh edition maintains the format of previous editions, the inclusion of a new author has brought many changes relative to the sixth edition:

• New chapters on income distribution and on development and the environment have been added while other chapters have been consolidated.
• Most of the Selections and Notes are new.
• The representation in the Selections of articles from leading professional journals has increased.
• The Selections make greater use of statistical analysis, and an Appendix, “How to Read a Regression Table,” has been added to ensure that these Selections are easily accessible to all readers.

We wish to express our appreciation to the authors and publishers who have granted permission to use excerpts from publications for which copyrights exist. Specific acknowledgment is given with each Selection. Some parts of the original versions of the excerpted materials have been omitted out of consideration for relevance and to avoid repetition. In some instances, tables and diagrams have been renumbered and the footnotes have been deleted or renumbered.

We would like to thank a number of extremely busy people who generously took time out to provide advice or to comment on portions of the manuscript: Richard Carson, Graham Elliott, Peter Evans, and Dani Rodrik. We would also like to acknowledge the valuable research assistance of Neville Francis, Timothy Kane, Paula Lindsay, and Donald McCubbin. James Rauch wishes to thank his wife, Doris
Bittar, for making room in her life for this book during its final months of preparation. Kenneth MacLeod has been a very helpful and patient editor. Finally, we are grateful to the entire profession of social scientists whose writings on development provide the foundation for this volume.
USING THIS BOOK

Instructors and students can use this book more like a main text or more like a supplementary reader. To facilitate the latter approach the contents have been designed to allow individual freedom of choice in deciding what chapters and Selections to read and in what sequence. If the former approach is taken, the organizational and thematic guidance of the chapter Overviews can be followed and the chapters can be read in numerical order.

The chapters include the following materials:

Overviews: These are introductory essays that show how the subsequent chapter materials fit together and elucidate one or more overarching themes. They sometimes contain ideas that are not explicitly presented by the other chapter materials.

Selections: These are the core of the book. They present a broad sample of the major contributions by scholars and practitioners on the central issues in economic development. Each Selection has been edited for the sake of brevity and to highlight the points of greatest relevance for the chapter in which it appears.

Notes: These serve two purposes. One is to expound important ideas that are extant in the literature but are not presented as clearly or simply as we would like. The other is to present more original material that complements the Selections.

Comments: Like the Notes, these serve two purposes. One is to clarify or expand upon the immediately preceding Selection. The other is to suggest additional readings on the subject of the immediately preceding Selection.

Exhibits: These are tables and charts that provide empirical illustrations and data on topics under discussion. Starting with Selection III.1, some Selections include regression tables. Readers without econometric training are urged to refer to the Appendix to get the most insight from these Selections.
INDEX OF SELECTION AUTHORS

Ahlwalia, Montek S., 387–90
Alesina, Alberto, 401–3, 404–8

Balassa, Bela, 180–86
Banerjee, Biswajit, 323–27
Barbier, Edward, 554–59
Bardhan, Pranab, 359–60, 446–49
Barro, Robert J., 234–36
Bates, Robert H., 450–55
Behrman, Jere R., 254–56
Benhabib, Jess, 218–22
Bhagwati, Jagdish N., 13–17, 187–90
Binswanger, Hans P., 356–58
Birdsall, Nancy, 242–48
Blomström, Magnus, 126–28
Braverman, A., 361–63
Braverman, A., 361–63
Buvinic, Mayra, 275–79
Cardoso, Eliana, 52–57
Chichilnisky, Graciela, 531–33
Collier, Paul, 280–82
Deacon, Robert T., 535–43
Deardorff, Alan V., 175–78
Deolalikar, Anil B., 254–56
Easterly, William, 147–53, 456–70
Edwards, Sebastian, 58–60
Evans, Peter B., 476–94, 508–15
Fei, John C. H., 409–16
Fields, Gary S., 318–22, 391–93
Fishlow, Albert, 52–57, 417–20
Guasch, J. L., 361–63
Hanushek, Eric A., 229–33
Harrison, Ann, 209–10
Hettige, Hemamala, 544–53
Hill, M. Anne, 263–70
Huq, Mainul, 544–53
ILO Mission, 313–15
International Labour Office, 271–74
Johnston, Bruce F., 340–45
Keefer, Philip, 471–75
Khalilly, Basqui, 285–87
Khan, Zahed, 285–87
Khandker, Shahidur R., 285–87
King, Elizabeth M., 263–70
Knack, Stephen, 471–75
Kremer, Michael, 147–53
Krueger, Anne, 187–90, 437–40
Kuo, Shirley W. Y., 409–16
Kuznets, Simon, 382–86
Lee, Jong-Wha, 234–36
Levine, Ross, 141–46, 456–70
Lipsey, Robert E., 126–28
Lipton, Michael, 370–72
Livingstone, Ian, 316–17
Lycette, Margaret A., 275–79
McKinnon, Ronald L., 133–36
Markandya, Anil, 554–59
Matsuyama, Kiminori, 107–9
Murphy, Kevin M., 111–13
Overseas Development Institute, 65–68
Pack, Howard, 206–8
Pargal, Sheoli, 544–53
Patrick, Hugh T., 138–40
Pearce, David, 554–59
Perkins, Dwight, 48–51
Perotti, Roberto, 404–8
Preston, Samuel H., 293–94
Pritchett, Lant, 114–18, 147–53
Psacharopoulos, George, 223–26
Ranis, Gustav, 170–74, 409–16
Rauch, James E., 395–99, 508–15
Reynolds, Lloyd G., 80–95
Robinson, Sherman, 394
Rodrik, Dani, 195–201, 401–3, 495–507
Rosenzweig, Mark R., 356–58
Sachs, Jeffrey D., 161–67
Sen, Amartya, 283–84
Shleifer, Andrei, 111–13
Singh, Inderjit, 364–66
Spiegel, Mark M., 218–22
Squire, Lyn, 364–66
Srinivasan, T. N., 61–63, 442–45
Stern, Nicholas, 426–30
Strauss, John, 364–66
Summers, Lawrence, 147–53
Tidrick, Gene M., 307–11
Timmer, C. Peter, 347–49
Todaro, Michael P., 300–301
Vishny, Robert W., 111–13
Wai, U Tun, 129–32
Warner, Andrew M., 161–67
Wheeler, David, 544–53
Zejan, Mario, 126–28
Africa, 65–68; typology of, 170–74; underemployment and, 395–99; unlimited labor supply and, 297–99
Economic environment, 429–30
Economic growth: agricultural productivity, comparative advantage and, 107–9; agriculture and, 81, 82, 83–84, 342–43; cross-country studies of, 141–45, 458–60; in East Asia, 36–41, 147, 152; education and, 216–17; environment and, 524–26; extensive, 80–85; financial development and, 138–40, 141–46; fixed investment and, 126–28; functional approach to, 40–41; income distribution and, 391–93, 401–3, 409–16; income inequality and, 382–86; industrialization and, 81, 82, 183–84; institutional indicators and, 471–75; Korea and, 105; Latin America and, 52–54, 183–84; institutional indicators and, 471–75; extensive, 80, 456–70; in Third World countries: 1850–1980, 80–96; informal sector and, 314–15, 323–26; mobility from informal sector to, 209–10; natural resources and, 156, 161–67; policies versus shocks in, 147–53; in Sub-Saharan Africa, 65, 68, 237, 238, 429; teacher education and, 229; teacher experience and, 229; teacher salaries and, 229, 234, 235, 236; test scores and, 236; textbooks in, 229, 231; total expenditure per pupil and, 229, 234, 236
Egypt, 7; bureaucracy in, 514; divergence and, 115; economic growth in, 84, 85, 88, 89, 92, 93, 94; education in, 230, 231, 232; poverty in, 18; trade and, 189; women in, 233
Elasticity of demand, 107–8, 109, 110
Electronic Research and Service Organization (ERSO), 199
El Salvador, 52
Embedded autonomy, 478, 480, 481–82, 484, 485–86, 487, 490, 491, 493, 494
Employment. See also Labor force; Underemployment; Unemployment: in India, 448; in rural sector, 356–58

Zambia, 87, 275
Zimbabwe (Southern Rhodesia), 86, 87, 258
Completely updated and revised in this eighth edition, Leading Issues in Economic Development covers the main issues in economic development through professional journal articles by leading scholars. These articles are edited to provide greater accessibility to an undergraduate audience and organised thematically using overview essays along with explanatory notes and comments. This distinctive approach allows for a variety of perspectives while keeping the most important overall themes in sight. In attempting to define a less developed country it would clearly be helpful to have an accepted measure of development. In recent years a consensus has been gathering around the Human Development Index (HDI) as the preferred measure of development. Meier, Gerald & Rauch, James E., 2005. "Leading Issues in Economic Development," OUP Catalogue, Oxford University Press, edition 8, number 9780195179606. Handle: RePEc:oxp:obooks:9780195179606.
