Principles to guide your use of leadership techniques 11 — Summarizes important principles for leaders and how to use them as a springboard for developing beliefs, thinking, and action as a powerful leader. The basic habits and practices of successful leaders 15 — Helps leaders take specific leadership actions; inspired by Stephen Covey's™s Seven Habits. The GAS model: Designing practical organizational processes 33 — Helps leaders optimally design or redesign leadership processes, by making tradeoffs to ensure processes are practical and usable. Integrity: Gut-level ethics 36 — Takes the cerebral concept of ethics and places it where leaders can understand and act on it — at gut level. The Encyclopedia of Leadership is a comprehensive reference guide to over 200 of the most important business leadership principles, theories, tools, and techniques. Each entry features a brief, one-page summary of an influential theory or tool — often illustrated graphically — followed by a worksheet or exercise. Thoroughly cross-referenced, it allows busy leaders to find what they need, review it, and even implement it — often in as little as 15 minutes. Murray Hiebert (Calgary, Canada; [www.consultskills.com](http://www.consultskills.com)) has over twenty years experience as an international consultant. He also manages an interna
