David Slater. Routledge, 2009

Social Class in Contemporary Japan is the first single volume that traces the dynamics of social structure, institutional socialization and class culture through this turbulent period, all the way into the contemporary neoliberal moment. In an innovative multi-disciplinary approach that includes top scholars working on quantitative class structure, policy development, and ethnographic analysis, this volume highlights the centrality of class formation to our understanding of the many levels of Japanese society. Written by a team of contributors from Japan, the US and Europe this book will be invaluable to students and scholars of Japanese society and culture, as well as those interested in cultural anthropology and social class alike. Excerpt. Hiroshi Ishida and David H. Slater. Social Stratification in Contemporary Japan Link dokumen ProQuest Abstrak (Abstract): "Social Stratification in Contemporary Japan" edited by Kenji Kosaka is reviewed. Teks lengkap: Social Stratification in Contemporary Japan. Edited by KENJI KOSAKA. In the introduction, Kenji Kosaka reviews the historical background of social stratification in Japan, emphasizing a modern "tendency toward a leveling among people and classes" (p. 10). Studies of class and stratification in Japan date from at least the 1920s. The SSM surveys, repeated every ten years since 1955, have examined class structure, stratification and consciousness, social mobility, and in the 1985 survey, women's status and consciousness.

Get your Kindle here, or download a FREE Kindle Reading App. Contemporary Japanese Sociology aims at showcasing what Japanese sociology has attained and its expected future course. The editors of this unique collection have brought together the best and most challenging contributions in the field. The title is organized into two parts. The first part deals with empirical works. It focuses on social inequality in the global society—inequalities in education, occupation, income, family formation—and cultural activities in Japan, Asia, and the world. Japanese sociology has produced significant contributions based on theory-driven, rigorous empirical research.
